

## First Come, First Serve! In case several requests are made at around the same time, the largest order goes first.

### Notes on the Condition

I tried to be as accurate as humanly possible.

Condition 1	a brandnew unused item clean inside and out	less than 80 % of original price
Condition 2	an item that looks like new, probably never used, but even though it looks like new there are hints that the item might not be brandnew	less than 75 % of original price
Condition 3	an item that looks like new and has only some very few pencil markings inside, easily to remove (I am an artist; I never use pointed pencils or put pressure on it when writing)	less than 70 % of original price
Condition 4	an item that either has some pencil markings inside and/or some storage damage (e.g. a dog ear or some damage due to postage); both together a little of each or either of the one a little bit more	less than 60 % of original price
Condition 5	an item that has a fair amount of pencil markings inside and/or storage damage	less than 50 % of original price
Condition 6	used - has pencil markings inside and spine damage	less than 40 % of original price
Condition 7	worn - Item has a lot of pencil markings inside	less than 30 % of original price
Condition 8	well worn - item has a lot of pencil and/or ballpen markings inside (which probably wasn't my doing) and/or spine damage or other kinds of storage damage	less than 20 % of original price
Condition 9	item is more than 50 years old	depends on rarity, and overall condition
Condition 10	item is more than 50 years old and very hard to come by	an estimate according to prices found on the internet

You will find a lot of brandnew items in the list since I used to keep a copy of one of the big examination board books as reference and thanks to my funny way to color code heavily in several stages the pieces I work on for which I copy that page first before I ruin my original copy. Thus, most of my sheetmusic is incredibly clean!

The sheetmusic is alphabetically ordered by composer. You find the weight and the original price to get an idea about postage fees and how much money I reduced from the copy in question.

## Notes on the Postage Fees

Please note that the regular sheetmusic size usually can be send as a letter or small parcel when the weight does not exceed either 500 g or 1000 g nationally or internationally 2.000 g. This should go for national and international letters. Those letters are allowed to have a size of 350 x 250 mm. Most sheetmusic is below that. I printed the size of the sheetmusic in bold letters were it isn't. These can only be send as parcel.
