Please, be informed that shipment of jet skis from Europe to Russia, Vladivostok is open. You need to ship your jet skis to Belgium, Antwerpen for further shipment to Vladivostok. June 29, 2012 is the deadline for TCL shipping company (our partner in Europe) to recieve your jet skis at its warehouse. Shipment cost for 1 jet ski from Antwerpen to Vladivostok and from Vladivostok to Antwerpen is 2000 US dollars. We can also arrange shipment of your jet ski to Thailand for King's Cup that will be held in the beginig of December of this year. Riders should pay by themselves for PWCs shipment in Europe to the warehouse in Antwerpen, Belgium. In order to avoid any trouble with the clearance the PWCs and materials please confirm me that the customs in Russia will only require the following documents:

- the invoice of the each jet (showing the hull number)
- the list, the value and the total weight of the goods inside our trucks

Please, contact the race organizers at primjet25@gmail.com and [TCL company](#) if you have any questions.
